2. Action/Discussion Items

1. Sharp Survey Data Results

Concerned about community involvement and low graduation rates. Want to know how to help with student attendance

2. Data Scores (LA 67% - up 7% over state) (Math 73% - up 13% over state) (Science 60% hit state average - highest growth in district) (ACT Composite Score up .7 to 18.5 - highest ever and all areas had increase)

Discussed growth with parents and areas we would like to focus. Questions from parents - How can we continue growing? Are test scores below or above other schools that are comparable?

3. Funding Discussion for 23/24 Plan

Future School Allocation (plus estimated roll-over) ~\$29,000

What areas do we still want to focus on from last year. Funding for teacher class sizes, professional development, and technology all

options to keep. Parents asked about extra curricular items, but they need to be tied to an academic focus.

Plan vote: \$9,600 Professional Development, \$20,000 technology related purchases - Motion by Darlene Stubbs and seconded by Eliza Williams.

3. Upcoming Events - State Basketball, District Sterling Scholar, Exec Council Elections, ACT Testing March 23rd

What can they do to help with Exec council students that want to run?

4. Public Comments
